 If you're reading this, we're sure that you might be feeling a little scared right now. We want you to know that you're safe at school with your teacher and classmates, and your Mom and Dad are just fine. Remember how much we've practiced our family emergency plan? And how we all put together our emergency kits? Your Mom and Dad are safe at work and we're so happy that you're safe at school with your friends. Don't worry about us, and know that we'll come and get you as soon as we can. Remember to look at the emergency contact card that we put together, ok? Color on the drawing pad we put together for you and have fun playing cards with your friends. We love you very much and we're so proud of you-

See you soon!

Love,

Remember when we went to the Mariners game last summer and saw Edgar play and you caught the foul ball he hit? What a great day that was! We can't wait to go again next year!
